Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The main reason for allowance of claims 1-3 is that the prior art does not show or make obvious an engine control apparatus as shown in claim 1. Applicant discloses an apparatus for determining engine position from intake air pressure fluctuations comprising a pressure sensor for determining crankshaft degree of angular position and also an additional means for determining crankshaft position. The additional sensor means is capable of determining crankshaft position in the event of singular sensory component failure. This limitation in combination with other limitations of the claims renders this case allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Takisha Miller whose telephone number is (571) 272-2184. The examiner can normally be reached on Monday - Friday (7:00 am - 3:30 pm).
